Event

JOIN YOUNG PROFESSIONALS IN THE WATER QUALITY INDUSTRY

The Town of South Windsor Water Pollution Control Facility is designed for a flow of 3.75 mgd, with typical flows of between 2 to 2.5 mgd. This is an

Activated Sludge system that discharges into the Connecticut River. In addition to the Treatment Plant, Pollution Control staff also maintain over 130 miles of sewer line and 12 pump stations all over town. We serve a community of 26000 people, including 350 industrial users. The Treatment Plant underwent a 35 million dollar upgrade which was completed in 2012.

Connecticut Valley Brewing Company is an independently owned and operated family business.
