JOIN YOUNG PROFESSIONALS IN THE WATER QUALITY INDUSTRY

The University of Connecticut Water Pollution Control Facility is a surface aerated extended oxidation ditch facility with a 3 mgd design capacity. When the university is in session, the plant averages 1.5 to 2 mgd this drops to 0.3 to 0.5 mgd when not in session. The facility currently disinfects with chlorine and de-chlorinates with bisulfate April 1 through Oct. 31.

...and Hop Knot

Fun, trendy and affordable
The Hop Knot is proud to be Connecticut's first premier craft beer and gourmet pretzel bar. Featuring a variety of craft cocktails, board games, and pretzel sandwiches. 24 taps, always craft!

Friday, October 4, 2019
