

Officer & Committee Report Form : Entry # 8896**Executive Committee Meeting Date**

September

Name of Committee or Office

Industrial Wastewater Committee

Activities/Decisions Since Last Executive Meeting

Since the June update we have reviewed and selected four (4) abstracts for the 2024 Annual Conference Industrial Waste Session. Our last meeting was August 8 to finalize the selection.

We have had some discussions over the past few months with NERPCA to see how we can better interact with them and the Pretreatment coordinators to reach potential industrial users and / support their efforts. The consensus was to focus on the technical aspects of industrial pretreatment - see action plan below.

Meetings/Conference Calls Held

We had a meeting on August.8 to finalize the abstract review and discuss next steps relative to reaching out to industrial pretreatment users. Our next meeting is scheduled for September 7.

Meeting notes were sent to the group - summary below:

August 8, 2023 – Industrial Waste Committee Meeting summary:

There were four (4) abstracts submitted (summary attached). The recommendation will be to accept all 4 with the High Temperature Pyrolysis presentation may be better suited for another session, like Contaminants of Emerging Concern. Once all abstracts are reviewed, there may be one that is more suitable for our session and can be substituted. More to follow on this.

We have had some recent discussions with NERPCA to see how we can better interact with them, the Pretreatment coordinators to reach potential industrial users and / our support their efforts. The consensus was to focus on the technical aspects of industrial pretreatment. Subsequent discussion with members of the CEC committee seemed to indicate an opportunity to collaborate with them to expand their resource page to include best management practices for the major types of Industrial Waste that are regulated. We will discuss this further at our next meeting. Thank you to Teresea Tucker, Laura Marcolini, and Amy Hunter (CEC Committee Chair) for input on this.

Upcoming NEWEA Events:

- Deadline for abstract review submission – Aug 17, 2023

- CEC / Plant operations Specialty Conference
September 13, 2023 – Sturbridge, MA

- NEWEA Executive Committee Meeting
September 8, 2023, during the RICWA Tradeshow.

- NERPCA – New England Pre-Treatment Coordinators Association Conference scheduled for October 2023.

Action Plan Committee/Officer Assignments

Recent discussions with members of the CEC committee indicate a possible opportunity to collaborate with them to expand their resource page to include best management practices for the major types of Industrial Waste that are regulated. We will discuss this further at our next meeting on Sept 7. Thank you to Teresea Tucker, Laura Marcolini, and Amy Hunter (CEC Committee Chair) for input on this.
