Sunsetting of Water for People Committee

Whereas: Committee membership and interest in this committee has waned in past years. Current Chair believes the mission of this committee no longer represents the interests of NEWEA. Water for People is no longer the "Charity of Choice" for WEF. The major event that the committee hosted every other year with NEWWA was a Gala which feels outdated to the committee and NEWEA membership at large. Current Chair requests this committee be Sunsetting and requests a new charge, more aligned with the interests of NEWEA.

The Assessment and Development Committee hereby recommends the Sunsetting and Dissolution of the Water for People Committee to be confirmed by a vote from the Executive Committee on Wednesday January 20, 2021.

Respectfully Submitted,

Marylee Santoro
Chairperson
Assessment and Development Committee
