Largest energy
company in
New England

Servicing electric,
natural gas, &
water

4M CUSTOMERS

8,300
EMPLOYEES

Across all three
states

\$700m+ annual
energy efficiency
investment

#1 ENERGY
EFFICIENCY
PROVIDER IN THE
NATION

Empowering Connecticut to Make Smart Energy Choices

Eversource, CNG, SCG and UI, the Energy Efficiency Board, Connecticut Green Bank, and the State have united on a shared mission - to provide Connecticut residents and businesses the resources they need to **save money and use clean energy.**

The Energize Connecticut initiative empowers our communities to make smart energy choices, now and in the future.

Together, we make good happen for Massachusetts.

Your local electric and natural gas utilities and energy efficiency service provider are taking strides in energy efficiency: Berkshire Gas, Cape Light Compact, Eversource, Liberty Utilities, National Grid and Unitil.

As one, we form Mass Save[®], with the common goal of helping residents and businesses across Massachusetts save money and energy, leading our state to a clean and energy efficient future.

We Are Mass Save[®]

WE ARE MASS SAVE[®]:

What is NHSaves?

NHSaves is a collaboration of New Hampshire's electric and natural gas utilities working together to provide NH customers with information, incentives, and support designed to save energy, reduce costs, and protect our environment statewide.

Agenda

Water and Wastewater Projects Defined

Programs Available To Assist

Success Stories

Water and Wastewater Project Definitions

- What state or territory is the project in?
 - Defining the standard project is difficult
 - *Diverse systems have been designed and installed throughout the region*
 - *Each customer has specific needs*
 - *Most projects are treated as custom*
- 

Is the project
new
construction?

Is the project a
retrofit of an
existing
system?

New Construction Projects

- Get Eversource involved early
 - Is the project a new building?
 - Is the project a new process?
 - Is the project replacing existing equipment?
- 

Retrofit Projects

- Get Eversource involved early
 - Is the project a retrofit on an existing process?
 - Can we put controls on existing equipment?
 - Are there other measures that we can include?
- 

New Construction Incentives

- Different pathways depending on type of project
- New equipment based on incremental cost/savings
- Multiple measure incentives available

Retrofit Incentives

- Incentives based on installed costs/savings
- Incentives improved based on multiple end uses
- A great opportunity to use studies to maximize incentives

• 2022 Success Stories

Project #1-1,243,432 kWh savings/\$284,881.22 incentive and 4,849.39 tons of CO2 reduced

Project #2-839,184 kWh savings/\$545,469.60 incentive and 3,272.82 tons of CO2 reduced
