Veterans Tap Program	Boston University	8:30 – 10:30 AM
Awards Committee	MIT	9:00 – 10:00 AM
Sponsor Committee	MIT	10:30 – 11:00 AM
Industrial Wastewater Committee	Falmouth	11:00 AM – Noon
Residuals Management Committee	Yard House	11:30 AM – 12:30 PM
Small Community Committee	Off-Site	11:30 AM – 1:00 PM
Collection Systems Committee	Falmouth	12:00 – 1:00 PM
Youth Education Committee	Orleans	12:00 – 1:00 PM
Energy Committee	MIT	12:30 – 1:30 PM
Program Committee	Yard House	12:30 – 1:30 PM
Sustainability Committee	Hyannis	12:30 – 1:30 PM
Watershed Management Committee	Yard House	12:30 – 1:30 PM
Joint Regional Water Association Leadership	Falmouth	2:00 – 3:30 PM
Contaminants of Emerging Concern Committee	Falmouth	4:30 – 5:00 PM
Wednesday, January 24, 2024		
Government Affairs Committee	Falmouth	7:00 – 8:30 AM
NACWA Utility Exec Roundtable (Invited)	Vineyard	7:00 – 8:30 AM
Photo Ready Room	3rd Floor Atrium	9:00 – 10:00 AM
Regulator Task Force (ad hoc)	Orleans	9:15 – 10:15 AM
Award Ceremony & Lunch	Salon E	11:00 AM
Water Reuse Committee	Yard House	11:30 AM – 12:30 PM
Speakers' Ready Room (M, T, W)	Hyannis	7:30 AM

NEWEA 2024 Annual
Conference & Exhibit
Final Program
Schedule-at-a-glance

Robert Fischer
NEWEA President

Maureen Neville
NEWEA Program
Committee Chair

Welcome to the 2024 NEWEA Annual Conference!

This year's event theme is One Water, a holistic, collaborative approach to water management to ensure the sustainability and long-term resilience of our water resources. The One Water movement promotes transformative solutions to solve the most pressing challenges impacting the water environment. Many elements of this year's program will address key themes related to One Water.

The program features 37 technical sessions, a Student Poster Competition showcasing the work of water quality undergraduates and graduates, the Innovation Pavilion, and two floors of exhibitors highlighting the industry's latest products and services.

The conference commences on Monday with six morning and seven afternoon technical sessions on key industry issues. The Opening Session at 11:00 AM will convene attendees to hear from NEWEA and WEF leadership and our 2024 Keynote Speaker, Dr. Jonathan Gruber. Undergraduate and Graduate students will present their research in the Student Poster Competition throughout the day. The afternoon winds down with the first of two Exhibit Hall receptions on the 3rd floor.

Tuesday offers another full day of exciting events. We celebrate and recognize operators by offering morning and afternoon Plant Operations technical sessions, as well as the lunchtime Operator's Reception. A Plenary Session will be held from 11:00 AM to 12:30 PM, featuring a 45-minute panel discussion on existing and emerging challenges impacting our water resources followed by 45 minutes of pitches from innovators developing solutions to address these issues. These water industry innovators will also showcase their technologies and foster discussions on water innovation at the Innovation Pavilion, taking place in the 3rd Floor Atrium. The day concludes with an Exhibit Hall Reception on the 4th floor.

The final day of the conference features exhibits, morning and afternoon technical sessions, our lunch-time awards ceremony recognizing outstanding efforts in our industry, and the passing of the gavel to the 2024 NEWEA President, Scott Goodinson of Narragansett, RI. We hope you take advantage of all the 2024 Annual Conference has to offer and use this occasion to connect with and support your water industry colleagues.

We wish to recognize the significant efforts of the Meeting Management Council and members of the Program, Registration, Exhibits, and Awards Committees who make this conference one to look forward to each year. Thanks to the members of all the technical committees who review abstracts, moderate sessions, and provide the technical and subject matter expertise we need to do our jobs better. This conference would not be possible without the tireless efforts of the NEWEA office staff: Mary Barry, Janice Moran, Jordan Gosselin, and Heather Howard. Thank you for your dedication, energy, professionalism, new ideas, and patience in planning and coordinating this great event every year!

Robert Fischer, NEWEA President
Maureen Neville, NEWEA Program Committee Chair

NEWEA 2024 EXECUTIVE COMMITTEE

President	Robert K. Fischer
President Elect	Scott C. Goodinson
Vice President	Deborah S. Mahoney
Treasurer	Dave J. Van Hoven
Past President (Management Review)	Frederick J. McNeill
Executive Director	Mary M. Barry
WEF Delegate (10/20)	Peter B. Garvey
WEF Delegate (10/21)	Ray Vermette
WEF Delegate (10/22)	Janine L. Burke-Wells
WEF Delegate (10/23)	Virgil J. Lloyd

State Directors

Connecticut	Vanessa McPherson
Maine	Paula L. Drouin
Massachusetts	John M. Digiacoia
New Hampshire	Michael A. Trainque
Rhode Island	Edward Davies
Vermont	Michael Smith

Council Directors

Collection Systems/Water Resource	Scott W. Lander
Communications	Philip J. Tucker
Innovation	Michael Murphy
Meeting Management	Amy E. Anderson
Outreach	Colin O'Brien
Treatment, Systems Operations, & Management	Marina Fernandes

NEWEA 2024 COUNCILS

Vice President Council

Certification Committee*	Walter C. Palm
Kate Biedron Memorial Fund Task Force*	Meg Tabacsko

Meeting Management Council

Conference Arrangements Committee	Ronald Tiberi
Exhibits Committee	Paul Russell
Program Committee	Maureen D. Neville
Registration Committee	Scott Neesen

Communications Council

Diversity, Equity, and Inclusion Committee	Stephen King, Jr.
Journal Committee	Jennifer Lawrence
Public Awareness Committee	Faye DeMoura
Youth Education Committee	Danielle Gallant

Treatment, Systems Operations, & Management Council

Asset Management Committee	Matt Manchisi
Contaminants of Emerging Concern Committee	Amy E. Hunter
Energy Committee	Tracy Chouinard
Laboratory Practices Committee	Jason Nenninger
Plant Operations Committee	Nicholas B. Tooker
Operations Challenge Committee	Jason Swain
Residuals Management Committee	Jason Motta
Small Community Committee	Ian B. Catlow
Utility Management Committee	Kevin M. Garvey

Collection Systems/Water Resource Council

Collection Systems Committee	Kara M. Rozycki
CSO/Wet Weather Issues Committee	Joshua Schimmel
Industrial Wastewater Committee	Matthew Dickson
Stormwater Committee	Kathryn Edwards
Sustainability Committee	Wayne E. Bates
Water Reuse Committee	Anastasia Rudenko
Watershed Management Committee	Steven E. Wolosoff

Outreach Council

Government Affairs Committee	Jeffrey C. McBurnie
Membership Committee	Garrett M. Bergey
Safety Committee	Kevin LeRoux
Scholarships Committee	Annalisa Onnis-Hayden
Student Activities Committee	Joanna Sullivan
Young Professionals Committee	Daryl Coppola

Innovation Council

I/A OWTS Task Force	Bruce Walton
Innovation Committee	Michael Murphy

National Water Week! DC Fly-In

April 8 – 9, 2024
Washington, D.C.

The NEWEA Congressional Briefing is the annual hallmark for the Association and its government affairs program. Mark your calendar to join us on April 8–9, 2024. This is a great opportunity for our membership and elected officials to join together to discuss drinking water, clean water and stormwater infrastructure issues facing communities of the Northeast. We look forward to meeting with you and providing you with the latest information affecting our industry. Your involvement is critical—come to D.C. and be heard.

Attending the Briefing will allow:

- Opportunities to meet with senators, representatives, and legislative staff
- Substantive discussion of federal clean water legislative initiatives and opportunities to provide feedback related to the impact that these initiatives have on our communities and the water quality industry
- A forum for presentation and discussion of the NEWEA Position statements
- Opportunities to learn about key federal regulatory initiatives
- A forum to provide comments directly to regulatory leaders from EPA's Washington, D.C. Headquarters.

The two-day event includes a NEWEA group dinner on Monday night in preparation for Tuesday, when we will be holding individual meetings with senators and representatives on the Hill. If you plan to attend the briefing, the government affairs committee will work with you to schedule these individual appointments.

BECOME A WATER ADVOCATE

Make your voice heard even before you get to DC by **becoming a Water Advocate**. WEF's Water Advocates program empowers you to share your knowledge and expertise to inform government decision-makers about the importance of water. Visit <https://www.wef.org/water-advocates> to enroll.

For more information call: Jeff McBurnie (207) 272-8395) or Mary Barry (781-939-0908)

Inspect your vertical structures in minutes using the CUES SPiDER
to help you make reliable repair decisions.

SPiDER

MANHOLE SCANNER

CABLE

none

ACCURACY

1 to 5 mm

SPEED

5ft / min

WEIGHT

35 lbs

Just press record on the tablet and the SPiDER takes care of the rest.

- Inspect any structure up to 75ft deep and 15ft wide
- Auto-post processing and upload to office network
- Battery-operated and portable, no CCTV cable maintenance
- No software to learn in the field – learn it in a few minutes!
- Deploy using tripod or truck-mount

NEWEA 2024 Spring Meeting

**Work for Water:
For Communities.
For the Environment.
For our Future.**

Call for Presentations and Papers

May 19-22, 2024

Viking Hotel, Newport, RI

NEWEA invites the submission of abstracts for presentations for the upcoming 2024 Spring Meeting & Exhibit.

This annual meeting consistently attracts more than 300 engineers, consultants, scientists, operators, and students, and features a variety of technical sessions, exhibitor displays, and the Operations Challenge competition. It provides an opportunity for professional exchange of information and state-of-the-art concepts in wastewater treatment and water environment issues.

Please consider submitting an abstract on water quality topics such as:

- Diversity, Equity, and Inclusion
- Infrastructure Funding
- One Water
- Operators' Perspectives
- PFAS
- Resiliency
- Sustainability
- Workforce Development

Visit springmeeting.newea.org and click *Submit an abstract* to complete the online abstract submittal form

Abstract submission deadline: February 9, 2024

For more information contact the NEWEA office

Phone: 781-939-0908 • Email: mail@newea.org

Dr. Jonathan Gruber

Opening Session

Welcome:

Robert Fischer, NEWEA President
City of South Burlington, VT

Keynote Speaker:

**Dr. Jonathan Gruber, Ford Professor of Economics
and the Chairman of the Economics Department,
Massachusetts Institute of Technology**

Dr. Jonathan Gruber is the Ford Professor of Economics and the Chairman of the Economics Department at the Massachusetts Institute of Technology, where he has taught since 1992. He is also the former Director of the Health Care Program at the National Bureau of Economic Research, and the former President of the American Society of Health Economists. He is a member of the Institute of Medicine, the American Academy of Arts and Sciences, the National Academy of Social Insurance, and the Econometric Society. He has published more than 180 research articles, has edited six research volumes, and is the author of *Public Finance and Public Policy*, a leading undergraduate text in its 7th edition, *Health Care Reform*, a graphic novel, and *Jump-Starting America: How Breakthrough Science Can Revive Economic Growth and the American Dream* (with Simon Johnson). In 2006 he received the American Society of Health Economists Inaugural Medal for the best health economist in the nation aged 40 and under.

During the 1997-1998 academic year, Dr. Gruber was on leave as Deputy Assistant Secretary for Economic Policy at the Treasury Department. From 2003-2006 he was a key architect of Massachusetts' ambitious health reform effort, and in 2006 became an inaugural member of the Health Connector Board, the main implementing body for that effort. During 2009-2010 he served as a technical consultant to the Obama Administration and worked with both the Administration and Congress to help craft the Patient Protection and Affordable Care Act. In 2011 he was named "One of the Top 25 Most Innovative and Practical Thinkers of Our Time" by *Slate Magazine*. In both 2006 and 2012 he was rated as one of the top 100 most powerful people in health care in the United States by *Modern Healthcare Magazine*. In 2020 he received a Guggenheim Fellowship.

Tuesday
11:00 AM–12:30 PM

Plenary Session: Our One Water Future

.....

Moderator:
Stephen Sanders, WEF

Salon E

Last year, we commemorated the 50th anniversary of the Clean Water Act and highlighted the significant improvements to our water environment during this last half a century.

Now, we are looking ahead to consider the future of the Clean Water Act and our industry and how we can work together from a One Water perspective to ensure the sustainability of our water resources. One Water is an approach to water management that handles all water, regardless of its source, in a collaborative, integrated, inclusive, and holistic manner.

Current and emerging challenges are threatening our water environment and industry, including a critical need for infrastructure investment, emerging contaminants, and climate change. New technologies, ideas, and approaches are needed to address these issues and preserve our access to clean water. Additionally, collaborative efforts among the various sectors of our industry are important to ensure our water resources are managed effectively.

The first half of this session will feature a panel of experts discussing funding; environmental stewardship and planning; public outreach/awareness; and partnerships. Through a guided conversation, as well as audience questions, we will dig into the issues that matter most to clean water professionals to inform, inspire, and explore the future of the Clean Water Act and the water industry.

Following this panel, the second portion of the session will be pitches from leading innovators on the technologies they are developing as potential solutions to these challenges facing our industry.

Jeff McBurnie,
Casella Resource Solutions
Adam Yanulis, Tighe & Bond

Salon A/B

There are many challenges facing the six states that make up the New England region. The intention of the Regulatory Roundtable Session is to allow for discussion of common issues/solutions and to facilitate the exchange of information.

Panelists:

Kathleen Baskin, MassDEP
Joe Haberek, RIDEM
Ivonne Hall, CTDEEP
Amy Polaczyk, VTDEC
Tracy Wood, NHDES
TBD, MEDEP

Session 8

DEI: Strengthening Your Company Culture, Mindset and Project Success Through Effective Equitable Practices and Social Vulnerability Tools

Moderators:

Jess Locke, Tighe & Bond
Bill Russo, Automatech

Diversity, Equity and Inclusion – Establishing the Baseline

Bill Stierle, Subtext Solutions

Equity in Climate Resilience: A Survey of Progress in Greater Boston Municipalities

Stefani Harrison, Stantec
Kalila Barnett, Barr Foundation

Making Sense of Social Vulnerability Indices and Tools

Nicholas Mitch, Arcadis

Technical Sessions 7–13

Session 13

Young Professionals 2: Workshop on Centrifugal Pumping Systems 101 – Fundamentals for Design

Moderators:

Nick Tooker,
University of Massachusetts
Daryl Coppola,
FR Mahony

Berkeley

This is a 2-hour interactive workshop. Attendees will actively participate in the session. The first hour of the session will include an overview of system curves, pump curves, and related calculations for centrifugal pumping systems. The second hour will start with a discussion of practical applications of centrifugal pump design, followed by a guided tour of the Exhibit Hall. Attendees will be divided into groups and taken to vendor booths to view the latest pump models, look at literature (including pump curves), and ask questions.

Panelists:

Todd Brown, University of Hartford
Ryan Buckley, NEIWPCC
Daryl Coppola, FR Mahony
Emily Korot, CDM Smith
Kitty Lovell, Woodard & Curran
Colin O'Brien, Brown and Caldwell
Jaimie Payne, Bartlett & West
Nick Tooker, University of Massachusetts

Pre-registration is required.

Session 14

Plant Operations 2: The BNR Controls & Instrumentation Selection Adventure

Moderators:

Victoria Helle, NEIWPCC
Denise Descheneau,
Upper Blackstone Clean
Water

Salon C/D

This session will be interactive and engaging, featuring a facilitated panel discussion with representatives from participating utilities in a recently-completed Water Research Foundation Project. The project focused on instrument-based controls for biological nutrient removal systems. During the first hour, project leaders will share the evaluation tools developed for utilities, operators, and engineers. During the second hour, utility representatives will share their experiences with implementation and operation of sensor-based controls for BNR, including performance, O&M, and costs. Please note it is assumed that attendees will have a working understanding of BNR processes, and the instrumentation used for monitoring and control.

Speakers:

Paul Dombrowski, Woodard & Curran
Jacob Fortin, Woodard & Curran
Allie Greenfield, Woodard & Curran
Sue Guswa, Woodard & Curran
Maureen Neville, Woodard & Curran
Nick Tooker, University of Massachusetts

Panelists:

Michael Andrus, Upper Blackstone Clean Water
Jesse Freeman, Woodard & Curran
Jeff Gamelli, City of Westfield
Matt Nolan-Parkhouse, Veolia

Session 15

Government Affairs 3: Infrastructure Funding

Moderators:

Jeff McBurnie,
Casella Resource Solutions
Peter Garvey, Dewberry

Salon A/B

US EPA's SRF team will present on the Bipartisan Infrastructure Law (IIJA) and its opportunities and implementation for the State Revolving Fund. Topics will include but are not limited to financing, eligibility, and the similarities and differences between the domestic preference requirements, specifically the American Iron and Steel requirement (AIS) and the Build America, Buy America Act (BABA). The presentation will also include a Q&A period.

Panelists:

Leslie Corcelli, EPA Office of Wastewater Management
Forrest Petrich, EPA Office of Wastewater Management
Kelly Tucker, EPA Office of Wastewater Management

Session 20

Residuals and Biosolids 2: Biosolids Management Risks and Regionalization Solutions

Moderators:

Vanessa Borkowski, Stantec
Eric Spargimino, CDM Smith

Salon A/B

This session will address the drivers and progress with respect to biosolids regionalization within New England via a panel discussion about current programs, regulatory insights, and technical advancements. Current program discussions will tap local Water Resource Recovery Facility managers to understand where their greatest hurdles exist when pursuing these types of projects. It will also discuss other regions that have been successful in implementing biosolids regionalization facilities. This session will also provide context for the types of regulations that encourage and hinder biosolids regionalization from the utility manager's perspective. The final component of the session will cover technological advancements by acknowledging the various processes, maturity, and scalability. This session is intended to be an interactive session.

Panelists:

Shelagh Connelly, RMI
Karla Sangrey, UBCW
Scott Firmin, PWD
Josh Schimmel, SWSC
Jim McCaughey, NBC
Dru Whitlock, Stantec
Peter Loomis, CDM Smith

Session 21

Public Awareness – Communicating for Collective Impact: Stakeholder Engagement Success Stories from New England

Moderators:

Emily Cole-Prescott,
City of Saco, ME

Katie Evans,
Woodard & Curran

Sruthi Kakuturu, Dewberry

So many of the challenges facing the clean water sector involve a lack of knowledge about the great work our water teams accomplish every day. Utilities across the country and world struggle to engage those outside the industry to build support for their work, change behavior, achieve collective goals, and attract the future workforce. To change this, utilities need to be clever and creative in their outreach programs while balancing costs with conflicting priorities and stretched budgets. This panel session will present communications initiatives undertaken by New England utilities, associations, and nonprofits.

Panelists:

Faye DeMoura, Wright-Pierce

Kristen Kelleher, City of Cambridge, MA

Rich Niles, Woodard & Curran

Don Sands, X-Cel Conservation Corps

Theresa Tucker, York Sewer District

Woodard & Curran
Natalie Pommersheim,
Environmental Partners
Kate Edwards, Arcadis
Peter Varga, Kleinfelder

With new nutrient waste load allocations incorporated in the Environmental Protection Agency's Municipal Separate Stormwater Sewer System (MS4) Permit in Massachusetts and New Hampshire, the stage has been set for extensive and unprecedented stormwater based nutrient reduction implementation strategies that will span the next several decades. This session is intended to build off outcomes from the one-day stormwater specialty conference in May 2023 and will focus on source control innovations, regulatory updates, and regional success stories.

Respectfully submitted on
September 8, 2023, by
the NEWEA Nominating
Committee:

Jennifer Kelly Lachmayr,
Chair

Eddie Davies

Marina Fernandes

Virgil Lloyd

Frederick McNeill

All nominees have
indicated their willingness
to serve.

Annual Business Meeting

By vote of the Nominating Committee, I submit the following nominations in accordance with Article 9.3.1 of the NEWEA Constitution and Bylaws to the Executive Committee, for approval to place the slate of officers before the membership at the NEWEA Annual Business Meeting on January 22, 2024:

- Vice President – **Scott Firmin**
- Deputy Treasurer – **Arthur Simonian**
- WEF Delegate – **Emily Cole-Prescott**
- Council Director – Communications – **Philip Tucker**
- Council Director – Meeting Management – **Scott Neeses**
- Council Director – Outreach – **Daryl Coppola**
- Rhode Island Director – **Amy Anderson George**
- Vermont Director – **Jennie Auster**

In accordance with the provisions of Article 9.3.2 of the NEWEA Constitution & Bylaws, these Officers will advance to the following positions:

- President – **Scott Goodinson**
- President-Elect – **Deborah Mahoney**
- Past President – **Robert Fischer**

The remaining incumbents are fulfilling unexpired terms:

- Treasurer – **David Van Hoven** (3rd year)
- WEF Delegate – **Raymond Vermette** (through WEFTEC 2024)
- WEF Delegate – **Janine Burke-Wells** (through WEFTEC 2025)
- WEF Delegate – **Virgil Lloyd** (through WEFTEC 2026)
- Council Director: Collection Systems/Water Resources – **Scott Lander** (2nd year)
- Council Director: Innovation – **Michael Murphy** (2nd year)
- Council Director: Treatment, Systems Operations & Management – **Marina Fernandes** (3rd year)
- Connecticut Director – **Vanessa McPherson** (2nd year)
- Maine Director – **Paula Drouin** (3rd year)
- Massachusetts Director – **John Digiacomo** (2nd year)
- New Hampshire – **Michael Trainque** (3rd Year)

Evaluating the Resource Recovery Potential of Dairy Processing Waste Through Anaerobic Digestion

Kennedy Brown
University of Vermont

Integration of Chlorine Production from Electrolysis into a Wastewater Treatment Plant

Nelson Chime Chidubem
University of Maine

Fermentation of Amino Acids by Anaerobic Microbiomes in the Absence of Methanogenesis

Leandro Conrado
University of Vermont

The Influence of Thermal Pretreatment on the Fermentation of Cow Manure to Produce Butyrate as a Pre-Cursor for Propane

Mona Davoudimehr
University of Vermont

Disentangling the Complex Water Reuse Regulatory Situation

Carrie Ellis
University of Rhode Island

Analysis of SARS-CoV-2 Passive Sampling Uptake Kinetics in a Pilot Scale Simulated Batch Reactor Sewer System

Andrew Kennefick
University of Massachusetts Amherst

Enhanced Electrochemical Textile Dye Degradation Using Fe-TAML Catalysts

Faye Kuszewski
University of Massachusetts Amherst

Quantitative Detection of SARS-CoV-2 Viral Load in Wastewater Using Acoustic Wave Micropillar Biosensors

Nerissa Molejon, Alex Ryzi
University of Massachusetts Lowell

Stability and Degradation of Psychoactive Drugs in Riverine Systems

Varsha Niroula
University of Massachusetts Lowell

Evaluation of the Current and Future Operation of the Mekoryuk Wastewater Lagoon

Raphael C. Nnachi, Liam Amery, Kevine Odira
University of Massachusetts Amherst

Interaction Between Carboxylated-Polystyrene Nanoparticles in Alginate Matrix: Elucidating the Role Of Crosslinking Density and Particle Size

Timothy Onuh
University of Massachusetts Amherst

Exposure to Ketamine Affects the Growth and Development of Oyster Larvae

Gustavo Salcedo
University of Massachusetts Lowell

Determining Ideal OLR for Converting a Mixture of Glucose and Xylose to MCCAs

Panagiota Stamatopoulou
University of Vermont

Atmospheric Deposition of Per- and Polyfluoroalkyl Substances (PFAS) in the Great Bay Watershed, New Hampshire

Katherine Wieck
University of New Hampshire

Identifying Transformation Pathways of Five PFAS Classes in Biological Systems Using EPA's Chemical Transformation Simulator (CTS)

Leila Hassanpourmoghadam
University of New Hampshire

Tuesday
8:00 AM–4:30 PM

NEWEA's Innovation Council Innovation Pavilion

NEWEA's Innovation Council is excited to host a full-day program that will feature Innovator exhibits, a Plenary discussion looking at the current ONE Water challenges faced by utilities and those over the next 50 years, pitches from innovators who are developing technologies to address the topics covered during the plenary session, and an afternoon technical session.

NEWEA's Innovation Council provides a platform for those sharing a common passion to bring solutions to market to come together to address challenges and opportunities in water innovations. Members represent all sectors of the water community including utilities, service providers, consultants, manufacturers, water users, regulators, investors, and researchers both domestically and globally.

SCHEDULE - TUESDAY JANUARY 23, 2024	
8:00 - 9:00 AM (3rd Floor Atrium)	Continental Breakfast
9:00 - 11:00 AM (3rd Floor Atrium)	Innovators Set Up & Network
11:00 AM - 12:30 PM (Salon E)	"Our One Water Future" Plenary Session and Interactive Panel with Innovators addressing problem statements presented by the panelists. <i>See description on page 16</i>
12:00 - 2:00 PM	Lunch Break (on own)
2:00 - 2:30 PM (Regis)	Veolia Presentation The Veolia Innovation team will share their experience of how they successfully persuaded both internal and external stakeholders to pilot the Barrel on a wastewater reclamation plant in Southern California. They will discuss the steps they took and the obstacles they overcame to gain support for this innovative technology. <ul style="list-style-type: none">• Celine Delabie, Veolia• Kendra Morris, Veolia

SCHEDULE - TUESDAY JANUARY 23, 2024 - cont'd	
2:30 - 3:00 PM (Regis)	Xylem Presentation How does the world's largest pure-play water technology company think about innovation? Jeff Lopes and Josh Griffis are water innovation veterans who began their innovation careers at the same time that their companies were launching dedicated innovation programs. Jeff with Xylem and Josh with Evoqua which is now a part of Xylem. During this presentation they will share their experience and perspectives on Xylem's evolved innovation vision along with the processes established to realize it, including needs-finding, technology scouting, R&D collaborations, and commercial partnerships. <ul style="list-style-type: none">• Jeff Lopes, Xylem• Josh Griffis, Xylem
3:00 - 3:30 PM	Coffee Break
3:30 - 4:30 PM (Regis)	Enhanced Innovative & Alternative (EIA) Septic Update - Case Studies and Financial Impact Scott Horsley will discuss case studies in Wellfleet and Tisbury which resulted in a successful Wellfleet SRF IUP application and a Targeted Watershed Management Plan for Lake Tashmoo, Tisbury, MA. What works and how did we get there? Bruce Walton will look at comparative cost numbers for I/As and sewerage, and what they could mean for towns and the Cape. Finally, we will take questions and hear from Michael Loberg of the Tisbury Board of Health, Marybeth Chubb, Wastewater Section Chief, MassDEP and Chi Ho Sham, incoming chair of NEWEA Innovation Committee. <ul style="list-style-type: none">• Scott Horsley, Water Resources Consultant• Bruce Walton, Battalia Winston• Michael Loberg, Tisbury Board of Health• Marybeth Chubb, Wastewater Section Chief, MassDEP• Chi Ho Sham, Incoming Chair, Innovation Committee

Exhibitors

ABBA Pump Parts and Service

Booth(s): 105

Since 1989 ABBA Parts has proven our value to countless municipalities across the USA including those operating 4 of the 5 largest WWTPs in the country. Responsible for pump maintenance Visit us in person to learn more about how you can save time and money on parts and replacements to fit your brand name wastewater/sewage pumps.

Contact: Wendy Jamison, 5370 Munro Court, Burlington, ON L7L 5N8 Canada, Tel:(905) 333-2720; Email: wendy_j@abbaparts.com; www.abbaparts.com

ADS (Bronze Sponsor)

Booth Number(s): 437, 445

ADS provides innovative solutions to sewer monitoring challenges through the manufacture of flow meters, sensors, depth monitors, and rain gauges. These tools in conjunction with our software and field services provide comprehensive solutions to I&I studies, CSO monitoring and public notification, overflow alarming, and other sewer related monitoring projects.

Contact: Matthew Brown, 51 Wentworth Ave, Ste 15, Londonderry, NH 03053, Tel:(256) 656-6385; Email: mbrown3@idexcorp.com; www.adsenv.com

American Water Works Association

Booth Number(s): 215

An international, nonprofit, scientific and educational society dedicated to providing total water solutions assuring the effective management of water. Founded in 1881, the Association is the largest organization of water supply professionals in the world.

Contact: Chi Ho Sham, 6666 West Quincy Ave, Denver, CO 80238, Tel:(617) 347-3639; Email: csham@awwa.org; www.awwa.org

Amphidrome® Advanced Treatment System

Booth Number(s): 401-406

The Amphidrome® system is an affordable, energy efficient, customized onsite wastewater treatment solution designed to fit your site constraint and regulatory requirements. Utilizing Biologically Active Filter (BAF) high biomass technology, the system provides simultaneous removal of BOD, ammonia, suspended solids and nitrate-nitrogen in an extremely small footprint.

Contact: Patrick Compton, PhD, Branch Manager, Email: pcompton@frmahony.com, 781-982-9300. F.R. Mahony & Associates - See us in Booths 401 through 406.

APTIM

Booth Number(s): 408

A global industry leader headquartered in Baton Rouge, Louisiana. With more than 4,000 employees worldwide, APTIM specializes in environmental services, sustainability and energy solutions, program management, resilience, critical infrastructure, as well as technical and data solutions. Our dedicated people have proven experience and expertise to provide integrated services and solutions to government agencies, commercial, industrial and energy customers.

Contact: Jim Belcastro, 150 Royall St, Canton, MA 02021, Tel:(508) 463-8759; Email: jim.belcastro@aptim.com; www.aptim.com

Aqua Solutions (Gold Sponsor)

Booth Number(s): 452, 453, 460, 461, 468, 469

Aqua Solutions, Inc. represents leading manufacturers of municipal and industrial water/wastewater treatment equipment in the six New England states. Our experienced team provides practical and cost-effective solutions for our customers. From conceptual design and equipment selection through installation, startup and service after the sale, we are committed to providing superior customer service and the right product for each application.

Contact: James DeLuca, 154 West Grove St, Unit D, Middleboro, MA 02346, Email: jdeluca@aquasolutionsinc.net;

Aquamatrix by Water Analytics

Booth Number(s): 190

Contact: Brian Gannon, 100 School St, Andover, MA 01810, Tel:(978) 309-0707; Email: bgannon@wateranalytics.net; www.aquamatrix.com

AquaPoint**Booth Number(s): 413**

At AquaPoint, we have proven ourselves as leaders in the industry, designing and manufacturing high quality wastewater treatment systems. Our expertise in engineering allows us to help customers take their project requirements and turn it into a solution that will last for decades. We work to serve a variety of industries, and are able to design systems to meet each applications specific treatment needs.

Email: jpinto@aquapoint.com; www.aquapoint.com

Aquatic Informatics**Booth Number(s): 197**

Headquartered in Vancouver BC Canada, Aquatic Informatics has provided software solutions for 20 years that address critical water data management, analytics, and compliance challenges for the rapidly growing water industry. Water monitoring agencies worldwide trust Aquatic Informatics to acquire, process, model, and publish water information in real time.

Contact: Kassia Skolski, 1111 West Georgia, #2400, Vancouver, BC V6E 4M3 Canada,
Tel:(604) 365-2082; Email: kassia.skolski@aquaticinformatics.com; www.aquaticinformatics.com

Asahi/America**Booth Number(s): 435, 436**

Asahi/America is the premiere provider of thermoplastic fluid flow solutions for industrial, commercial and environmental applications. Our Chem Proline Advanced PE piping system is ideal for chemical handling in water treatment applications while the Poly-Flo® PP-R and Advanced PE co-extruded double containment piping system offers time saving on each project and is ideal for installations with tight space constraints, water treatment facilities using multiple chemicals and outside applications.

Email: bhopkins@bauhopkins.com; www.bauhopkins.com

BAU/Hopkins - Macurco/ Griffco**Booth Number(s): 422**

BAU/Hopkins is a multi-line manufacturer's rep specializing in chemical feed and process equipment across New England. Macurco is a leading global provider of rapidly deployable connected, intelligent gas detection systems that enable real-time safety and toxic threat detection. Griffco offers metering pump accessories, such as Back Pressure Valves, Pressure Relief Valves, Calibration Columns, Diaphragm Seals, Pressure Gauges & Y Strainers.

Contact: Bob Hopkins, 65 Holbrook St, Ste 250, Norfolk, MA 02056, Tel:(508) 699-9300;
Email: bhopkins@bauhopkins.com; www.bauhopkins.com

BAU/Hopkins- Netzsch/ Prime Solutions**Booth Number(s): 424**

Netzsch provides progressive cavity pumps and systems and rotary lobe pumps. Prime Solutions offers Rotary Fan Press in free standing, space saving skid mounted systems, & mobile systems.

Contact: Bob Hopkins, 65 Holbrook St, Ste 250, Norfolk, MA 02056, Tel:(508) 699-9300;
Email: bhopkins@bauhopkins.com; www.bauhopkins.com

Biorem**Booth Number(s): 153**

Biorem offers an array of technologies for the removal of odors, Hydrogen Sulfide (H2S), Volatile Organic Compounds (VOCs) and hazardous air pollutants (HAPs). They are available in many sizes and options from smaller integrated modular units to our larger custom designed field erected systems.

Represented by: The Maher Corp, See us in Booths 152-158, 181

BioSafe Systems**Booth Number(s): 208**

Simply Sustainable. Always Effective. BioSafe Systems, LLC is a company leading innovations since 1998 for environmentally sustainable practices and products that protect crops, water, and people. Our success hinges on a commitment to customer service, quality research, regulatory compliance, and the willingness to adapt. BioSafe Systems is a family-owned and operated company certified by NQA to ISO 9001:2015, 14001:2015, and 45001:2018, and our products are manufactured proudly in the USA.

JWB - Electroscan/Nivelco/Autrol America**Booth Number(s): 432**

A simple Electro Scan fact pipe defects that leak water also leak electricity. Our technology can detect leaks whether or not water leaks are occurring at the time; not possible with any other currently available evaluation method. Using Electro Scan, one can determine accurate location, measurement, and flow of potential defects within a pipe.

Nivelco, USA, is an industry leader in non contact and contact level monitoring instrumentation. Technologies include ultrasonic, radar, and guide wave radar. Industry proven products include EchoTrek, MicroTrek, PiloTrek, EasyTrek and MultiCont. All Nivelco products carry a 5 year factory warranty! The best in the industry!

Autrol America brings an impressive line of very competitive smart process transmitters for differential pressure, flow, pressure and temperature. Hart programmable and/or complete configurable with built in pushbutton programming.

100:1 turndown.

Contact: James Birkenberger, 65 August Ave, Wolcott, CT 06716, Tel:(203) 879-6959;

Email: jwbcompany@aol.com; www.jwbcompany.net

JWB - Pribussin/Motor Protection Electronics (MPE)/ Sewer Watch-Eastech**Booth Number(s): 431**

Pribusin offers unique and unsurpassable telemetry products for the water and wastewater industry. Non licensed/licensed wireless, cellular, dial up and FSK telemetry systems so simple, that programming is not required.

Motor Protection Electronics, Inc. manufactures pump monitors, phase monitors, voltage monitors, duplex alternators, intrinsically safe relays and industrial/municipal pump controllers for wastewater, water and, control panel builders.

Sewerwatch transforms the ability to manage constantly evolving collection network assets with videocentric mobile-first architecture.
