# President's Message

Summer is flying by as summer always does, and I hope this message finds you all well! CTWEA is as busy as ever with exciting events, trainings, and fun times coming soon. The CTWEA Fall Workshop is rapidly approaching and we would love for you to be there! As always Connecticut DEEP will be in attendance, as will Melissa Biggs, Esq., our CTWEA Lobbyist. We will also have a NEWEA update, and presentations on Workforce Development and Wetlands Permitting in relation to Wastewater Infrastructure Projects. This event will offer TCHs as it has in the past. This will be at the Aqua Turf on October 2, and promises to be another fantastic event!

In other news: The Operations Committee has been hard at work providing training opportunities, including an upcoming Lab Practices Seminar. This will take place on September 12th at the MDC Training Center. This committee is also preparing for the 2024 Operator's Exchange with New Hampshire and the 2025 Operations Forum (formerly Managers Forum) which will be at the Aquaturf in February. While things have quieted down on the legislative side, the Government Affairs Committee continues to closely watch potential upcoming legislation, particularly in regards to PFAS and Biosolids. Collaborations with the NEWEA Government Affairs group continue to bring massive value to our organization, as our colleagues throughout New England are keenly aware of the challenges we face in Connecticut and are always willing to help us work through them. The 2024 Sewer Open Golf Tournament was a huge success again. Thank you Ray Bahr and all the other volunteers who work so hard every year to make this event such a blast!

The Networking Events Committee is preparing for CTWEA Baseball Summer Outing on September 6th at Dunkin Park in Hartford. If you haven't had a chance to see a Yard Goats game you don't know what you're missing. Please consider joining us, if not for the baseball than for the BBQ and networking opportunities!

Thank you all for your continued support and commitment to our organization. The success of CTWEA, and truly the success of our industry in Connecticut, depends on the passion and devotion that folks like you have for the betterment of our environment. Enjoy the rest of the summer, we hope to see you soon!

Very truly yours, Jeff LeMay, President - CTWEA
