

NEWEA's Student Design Competition

Support NEWEA's Student Design Competition

NEWEA's Student Activities Committee is looking for facilities, firms, and/or municipalities to mentor and/or sponsor the Student Design Competition.

- Sponsorship: Competition can be sponsored by a participating entity by providing a monetary prize for the winning team.
- Mentorship: Competition can be mentored by a participating entity by providing the problem statement for the competition and/or participating in the project plan, final design reviews, and judging.

A winning SDC team—NU students:
Meghan Bruckman, Greg Coyle,
Andrew Gillen, and Alston Potts

The NEWEA Student Design Competition is intended to promote a “real world” design experience for students interested in pursuing an education and/or career in water engineering and sciences. This competition is intended for both undergraduate and graduate students, typically completing a capstone project.

Student teams will compete in one of two categories:

1. Wastewater Design
2. Water Environmental Design
