

# POO & BREW #28

## York Sewer District York Beach, Maine

A Young  
Professionals  
Networking  
Event

### JOIN YOUNG PROFESSIONALS IN THE WATER QUALITY INDUSTRY

THE YORK SEWER DISTRICT WAS FORMED IN 1947 and the District's Wastewater Treatment Facility (WWTF)

was constructed in 1973. A major upgrade to the WWTF was completed in 1994 and since that time, several components of the facility have been upgraded and replaced with new, more efficient systems, including a dewatering system upgrade in 2012 and a disinfection system upgrade in 2016.

The facility provides conventional activated sludge secondary treatment that includes a step screen, grit separation chamber, six aeration basins, two secondary clarifiers, and a chlorine contact tank for seasonal disinfection with sodium hypochlorite. The treated effluent discharges into the tidal waters of Cape Neddick Harbor. Learn more about the facility online: <https://www.yorksewerdistrict.org/process-flow-diagram>

**...and join us at York Beach Beer Company, for some networking and delicious beer.**

**Thursday, July 29, 2021**

Tour: 3–4 pm Brewery: 4–6 pm
