testing, advanced laboratory capabilities, and data analysis tools. The WET Center's access to real-world water sources, including municipal wastewater from the Amherst Wastewater Treatment Plant and a nearby surface water source, provides a valuable resource for validating new technologies. The facility is equipped to support research and development in areas such as water treatment, renewable energy, and environmental sustainability. The WET Center collaborates with industry, academia, and government agencies to develop and commercialize innovative technologies that address pressing global issues.

The tour will be followed by a networking event at **Hangar Pub & Grill** located in Amherst, MA. The brewery is less than 1.3 miles from the UMASS WET Center and offers great variety of amazing beers and food.

### Thursday, November 21, 2024

Facility Tour: **3:00pm**

Brewery: **4:30-6:30 pm**

#### Poo Tour

240 Mullins Way, Hadley, MA 01035
